ParonAppel

Summary

A game programmer specialized in gameplay, UI and tools with an ambition to create a smooth experience for the end user and fellow developers. Striving to get there by being an eager learner and dedicated to the work.

Work Experience

Section 9 Interactive - Game Programmer Intern
Malmö | November 2023 - June 2024

Section 9 Interactive - Game Programmer
Malmö | August 2024 - Present

Shipped Titles

End of Abyss

Worked on **End of Abyss** from **pre-alpha** to **post-release**, using **C++** and **Blueprints** visual scripting in **Unreal Engine 5**.

Programmed and implemented the games **UI** from concept to finished result with **UMG** and **Slate**. Created **shaders, materials** and **animations** based of concepts and refrences.

Prototyped, developed and expanded on various game **systems** and **gameplay features**.

Assisted with **Xbox, Epic Game Store, and Playstation 5 compliance** and certification, implementing required platform features and fixed issues.

Created **editor tools** and **automated tests** to aid and improve team members workflows.

Education

PlaygroundSquad - Game Programmer
Falun | August 2022 - June 2024

Studied Game Programming, the courses included **3 game projects** and a **6 month LIA period**.
